## Semperguard® Nitrile Xtension

.....the long Nitrile

- X extra length: 290 mm
- X drip protection
- X good chemical resistance\*

### Positioning

The latex free **Semperguard® Xtension** offers even more protection due to its extra length and, as a result of its resistance to chemical substances\*, is particularly suitable for applications in the laboratory and pharmaceutical sectors. In addition, the signal colour blue makes the **Semperguard® Xtension** especially convenient for use in the foodstuff sector, which is subject to the HACCP standards. The skin friendly material nitrile is very strong, feels comfortably soft and, moreover, is free of phthalates/plasticizers and allergenic latex proteins.

The new, extra-long **Semperguard® Xtension** therefore fits smoothly into Sempermed's portfolio of high-quality disposable gloves. Dual labelling constitutes an additional advantage for the user.

### CE-Categorization

The new **Semperguard® Xtension** is compliant with Directive 89/686/EEC on personal safety equipment (PPE) and Directive 93/42/EEC on medical devices. The advantage for the user is the extended scope of application: the gloves can be used for various purposes in industry, the service sector or the health sector.

The new **Semperguard® Xtension** also has dual labelling:

- PPE in accordance with CE Category III: waterproof protective gloves for chemical hazards\*(in accordance with EU Directive 89/686/EEC)
- Medical device in accordance with CE Class I: Examination gloves (in accordance with EU Directive 93/42/EEC)

In conformity with standards EN 420, EN 374 and EN 455

In addition, the **Semperguard® Xtension** meets the requirements of EU Directive 1935/2004 on food contact.

\* according to chemical list, available on [www.sempermed.com](http://www.sempermed.com)
