Post-OP dressing, waterproof, ABENA, 10x15cm, white, semipermeable, bacterial and virus-proof, liquid-proof, sterile, single use

- ✓ Absorbent
- ✓ Skin-friendly
- ✓ Breathable
- ✓ Flexible
- ✓ Semipermeable

Product Description

ABENA waterproof Post-OP dressing is a soft and comfortable sterile dressing for wounds with low secretion as well as for sutured wounds. The upper layer is made of nonwoven material with a semi-permeable polyurethane film. The upper layer causes fluid from the wound to evaporate thereby reducing the risk of maceration during wound dressing. The wound pad absorbs any excess fluid and prevents the bandage from sticking. The adhesive is skin-friendly and leaves no adhesive residues. The bandage is bacterial and virus-proof and is also showerproof. Used as a primary dressing for dry to slightly exuding wounds, such as cuts, scrapes and scab protection over sutured wounds.

Specifications

Base name	Post-OP dressing, waterproof
Brand	ABENA
Color	White
Features	Semipermeable, bacterial and virus-proof, liquid-proof, sterile
Single or multiple use	Single use
Material	Nonwoven
Ingredients / Composition	Polypropylene, polyurethane, polyester, acrylic adhesive
Length/depth	10 cm
Width	15 cm
Weight, net	4.2 g
Weight, gross	7.1 g
Wound pad size	5 x 9 cm
Sterilization method	EO
Certifications	CE
CE Class (Medical Devices)	Class Is
Directives, regulations and acts	93/42/EEC
Because of the products composition it has an expiry date from the production date on:	5 years
Storage Instructions	Store dry, room temperature and no direct sunlight.
Product Disposal Instructions	Can be disposed of with normal household waste sorted according to local regulations.
Packaging Disposal Instructions	Can be recycled or incinerated.
