

THE CATEGORY LEADING NEXT GENERATION OF PAPER CUTLERY HAS FINALLY ARRIVED!

Our paper cutlery is now even better. Stronger, more comfortable and more satisfying in the hand. A far superior alternative to wooden cutlery, designed for better performance and a more enjoyable eating experience.

Made using sustainably sourced paper and finished with an innovative sugar-based, biobased coating, this range performs exceptionally well with both hot and cold foods. The coating creates a smoother surface and stronger structure, giving a more premium feel in the hand and mouth, while remaining 100% biobased* with no added PFAS.

And, as with all Vegware products, it's designed for industrial composting, suitable for home composting, and made from recyclable materials.

DETAILS THAT MAKE THE DIFFERENCE

Every detail has been carefully considered.

- ✓ The new design is exclusive to Vegware
- ✓ Ergonomic handles for comfort and control
- ✓ Sleek, modern design with embossed branding
- ✓ Smooth hand and mouth feel
- ✓ Stronger structure, designed not to bend under pressure
- ✓ Suitable for a wide range of hot and cold foods, from soup and pasta to salad and ice cream

FEATURES & BENEFITS
